## Anthrax Coverup: A Government Insider Speaks Out

By Steve Watson

Is it possible that the anthrax attacks were launched from within our own government? A former Bush 1 advisor thinks it is.

Francis A. Boyle, an international law expert who worked under the first Bush Administration as a bioweapons advisor in the 1980s, has said that he is convinced the October 2001 anthrax attacks that killed five people were perpetrated and covered up by criminal elements of the U.S. government. The motive: to foment a police state by killing off and intimidating opposition to post-9/11 legislation such as the USA PATRIOT Act and the later Military Commissions Act.

"After the September 11, 2001, terrorist attacks, the Bush Administration tried to ram the USA PATRIOT Act through Congress," Boyle said in a radio interview with Austin-based talk-show host Alex Jones. "That would have set up a police state.

"Senators Tom Daschle (D-South Dakota) and Patrick Leahy (D-Vermont) were holding it up because they realized what this would lead to. The first draft of the PATRIOT Act would have suspended the writ of habeas corpus [which protects citizens from unlawful imprisonment and guarantees due process of law]. Then all of a sudden, out of nowhere, come these anthrax attacks."

"At the time I myself did not know precisely what was going on, either with respect to September 11 or the anthrax attacks, but then the New York Times revealed the technology behind the letter to Senator Daschle. [The anthrax used was] a trillion spores per gram, [refined with] special electro-static treatment. This is superweapons-grade anthrax that even the United States government, in its openly proclaimed programs, had never developed before. So it was obvious to me that this was from a U.S. government lab. There is nowhere else you could have gotten that."

Boyle's assessment was based on his years of expertise regarding America's bioweapons programs. He was responsible for drafting the Biological Weapons Anti-Terrorism Act of 1989 that was passed unanimously by both houses of Congress and signed into law by President George H.W. Bush.

After realizing that the anthrax attacks looked like a domestic job, Boyle called a high-level official in the FBI who deals with terrorism and counterterrorism, Marion "Spike" Bowman. Boyle and Bowman had met at a terrorism conference at the University of Michigan Law School. Boyle told Bowman that the only people who would have the capability to

carry out the attacks were individuals working on U.S. government anthrax programs with access to a high-level biosafety lab. Boyle gave Bowman a full list of names of scientists, contractors and labs conducting anthrax work for the U.S. government and military.

Bowman then informed Boyle that the FBI was working with Fort Detrick on the matter. Boyle expressed his view that Fort Detrick could be the main problem. As widely reported in 2002 publications, notably the New Scientist, the anthrax strain used in the attacks was officially assessed as "military grade."

"Soon after I informed Bowman of this information, the FBI authorized the destruction of the Ames cultural anthrax database," the professor said. The Ames strain turned out to be the same strain as the spores used in the attacks.

The alleged destruction of the anthrax culture collection at Ames, Iowa, from which the Fort Detrick lab got its pathogens, was blatant destruction of evidence. It meant that there was no way of finding out which strain was sent to whom to develop the larger breed of anthrax used in the attacks. The trail of genetic evidence would have led directly back to a secret government biowarfare program.

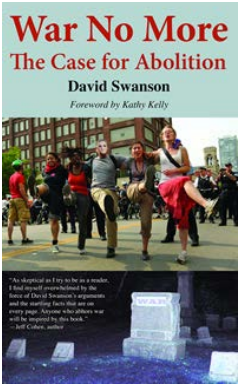

"Clearly, for the FBI to have authorized this was obstruction of justice, a federal crime," said Boyle. "That collection should have been preserved and protected as evidence. That's the DNA, the fingerprints right there. It later came out, of course, that this was Ames strain anthrax that was behind the Daschle and Leahy letters."

At that point, recounted Boyle, it became very clear to him that there was a coverup underway. He later discovered, while reading David Ray Griffin's book on the 9/11 attacks, The New Pearl Harbor, that Bowman was the same FBI agent who allegedly sabotaged the FISA warrant for access to [convicted co-conspirator] Zacharias Moussaoui's computer prior to 9/11. Moussaoui's computer contained information that could have helped prevent the attacks on the World Trade Center and the Pentagon.

In 2003, Bowman was promoted and given the Presidential Rank Award by FBI Director Robert S. Mueller. Senator Chuck Grassley (R-Iowa) wrote a letter to Mueller, chastising the organization for granting such an honor to an agent who had so obviously compromised America's security.

During the anthrax scare, the House of Representatives was officially shut down for the first time in the history of the republic. Once opposition from Leahy and Daschle evaporated in the wake of the attempts on their lives, the USA PATRIOT Act was rammed through. Testimony by Representative Ron Paul (R-Texas) revealed that most members of Congress were compelled to vote for the bill without even reading it.

"They were going to move to suspend the writ of habeas corpus, which is all that really separates us from a police state," Boyle said. "And that is what they have done now with respect to enemy combatants [in the Military Commissions Act of 2006]." Boyle added that lawmakers are

now arguing that Amendment XIV, which guarantees due process of law to all Americans, does not mean what it has been taken to mean and that, under the Military Commissions Act, any U.S. citizen can be stripped of citizenship and be labeled an enemy combatant.

Continued Boyle: "In other words, they have taken the position that at some point in time, if they want to, they can unilaterally round up United States native-born citizens, as they did for Japanese-Americans in World War II, and stick us into concentration camps." Boyle asserted that top officials, such as White House legal advisor John Yoo and former Assistant Attorney General Jack Goldsmith (now a professor at Harvard Law School), are pushing for the legalization of torture as well.

"The Nazis did the exact same thing," said Boyle. "They had their lawyers infiltrating law schools. Carl Schmidt was the worst, and he was the mentor to Leo Strauss, the [ideological] founder of the neoconservatives. So the same phenomenon that started in Nazi Germany is happening here, and I exaggerate not. We could all be tortured; we could all be treated this way."

Boyle stressed that it is vital to keep up the pressure on Senator Leahy, who now chairs the Senate Judiciary Committee, giving him subpoena power. Since Leahy was himself a target, he may have sufficient motivation to get to the bottom of the attacks. The FBI and the Justice Department have so far refused full disclosure to Congress.

In addition to his credentials as a government advisor, Boyle also holds a doctorate of law magna cum laude and a Ph.D. in political science, both from Harvard University. He teaches international law at the University of Illinois at Champaign-Urbana. Boyle also served on the Board of Directors of Amnesty International (1988-92) and represented Bosnia-Herzegovina at the World Court.

Boyle alleged that due to his activities as a lawyer, he was interrogated by an agent from the CIA/FBI Joint Terrorism Task Force in the summer of 2004. The agent tried to recruit him as an informant to provide the FBI with information on his Arab and Muslim clients. When he refused, according to Boyle, the FBI placed him on the government's terrorism watch lists.

SCARY

The more we learn, the scarier this gets. I hope Leahy pursues this, but no doubt he is scared for his life so he probably won't. Nothing like the politics of fear to promote an agenda. Jesus these people have to be stopped!

Your last sentence "Jesus these people have to be stopped!" is far more prophetic than you imagine. In fact, Jesus is the only one who can stop them, but not in the way you think. All the crap going on right now is written of in the Bible, and it's going to happen no matter what we do. But fortunately, the Bible also says that on judgement day, everyone is going to get what they deserve. And no amount of money, or crooked lawyers, or political connections will help them on that day. So get ready, the worst is yet to come. Just make sure that you aren't part of the problem, because the solution is comming soon too.

JESUS PEOPLE MUST BE STOPPED?

Submitted by Anonymous on Fri, 08/01/2008 – 8:30pm.

THE SO-CALLED JESUS PEOPLE, BUSH AND CHENEY, NEED TO BE STOPPED. OF COURSE SINCE JESUS WAS A PURE PACIFIST IT IS A COMPLETE LIE TO CALL THEM JESUS PEOPLE. THEY ARE JUST CULTURAL CRETINS, AND THEY LOOK TO ACHIEVE TOTAL SECULAR POWER. SURE THEY'LL SAY PRAYERS AND MORE IF IT HELPS THEM DECEIVE THE PEOPLE.

REMEMBER, ANYONE WHO ADVOCATES WAR, IE WAR WITH BLOODSHED IS BY DEFINITION NOT A FOLLOWER OF THE REAL, PACIFIST JESUS. ANY DUMBASS CAN SEE THAT BY READING THE NEW TESTAMENT. BUT MOST OF THESE SO CALLED CHRISTIANS ARE CULTURAL AUTOMATONS, INCAPABLE OF READING AND THINKING INDEPENDENTLY. I WISH THEY WOULD TRY.

### Hey nutbags!

Here's a big shocker. The Patriot Act passed 7 years ago and we did not get a police state.

Sure, it was a neocon plot being that 145 democrats in the house approved the act including such noted conservative right-wingers as:

Charlie Rangel  
 Nancy Pelosi  
 Anna Eshoo

And in the Senate? Every senator but one approved it including John Edwards and Hillary Clinton.

Congrats and sniffing out this obvious neocon plot you turd burglars.

Submitted by Anonymous on Sun, 04/20/2008 – 1:42am.

Are you quite sure we didn't get a police state? A state that advocates torture at the highest levels of government? A state where two of the highest ranking Congressional leaders of the opposition party can be attacked with deadly intent by Anthrax letters, only to have the FBI help to destroy evidence which would have certainly led right back to U.S. Military labs, and no doubt back to the current Administration? A state that operates a "Gulag Archipelago" of secret prisons around the world, where people are held without charge, without proof, without access to lawyers or anyone else from the civilized world? A state that monitors ALL of our phone calls and e-mails without warrant, using powerful, filtering computer systems? Yes, my naive friend, this has become a police state, right under your very nose.

The Democrats are, as are the Republicans, controlled by the Israel Lobby and the neocons.Ariel Sharon, the barbaric Israel PM said before his term was up "I own your f\*cking Congress".  
 So do some research and learn why the Dems pass acts that get forced upon them.First of all they were purposely shoved a 500 page act in their faces at a time limit frame and forced to sign it without reading it.

Nice try anyway!

Police State Real - Only Brainwashed Armchair Warriors Illusory

Submitted by Anonymous on Wed, 08/20/2008 – 10:28am.

The Neocons are obviously trying to stir up another Cold War. Fake Wars and suppressing the civil rights of the people are NAZI GOLD. This is how they are enriching themselves and their NAZI allies. Americans are morons for buying this recycled CRAP. But, the brainwashed armchair warriors can't think for themselves. They are too dependent on the Government to lead them by the nose. Sad to say it, but the majority are COWARDS afraid to stand up against the NAZI crime ring that is controlling the White House. Questioning reality is not in their programming. The majority of AMERICA has one focus in life-making CRAP we don't need for sale to MORONS who don't need it, for the benefit of CRIMINALS who own everything including the White House.

We thought it aloud, and we were discounted as conspiracy theorists. So where were all of these supposed whistle blowers while we were being slandered? so, it means that so very many elements of the GOP's machine were in motion that day, the Military Industrial Complex, the U.S. Military, direct participation as they controlled this Lab, as well as made sure that the entire North American Air Defense system (NORAD) was 'unplugged' in it's entirety that day. And as Bush sat on his ass in the classroom and read 'My Pet Goat', it's crystal clear that even the Secret Service knew what was going on, as they didn't IMMEDIATELY SCOOP HIS SORRY COMPLICIT ASS UP and move him when they got the word of the very first attack.

so where does it leave us? The Republican's were safely sequestered in underground bunkers where they couldn't be harmed, not a single Democrat was with them, no doubt even that bastard Lieberman knew of this plot, as it's now been proven that Rudy Guiliani had knowledge of WTC-7 about to be 'collapsed', as well.

where does it leave us? So very much of our government participated in this 'false flag' attack against the American People, so much of this has been exposed, and nary a single bastard has been tried, convicted, or otherwise punished for this TREASON.

why is that, America? Why is it that you stand by and 'ildly' watch murdering son's of bitches 'hijack' your entire government, loot you Treasury, and send your kids and family members off on an 'oil war' and 'occupation' to get that oil, and nobody says anything.

Shame on you, on this 4th. of July. Shame on you for being so mindlessly mollified and so utterly okay with this TREASON. Shame!

I have been saying the same thing for six damn years. They had one researcher killed. I can't recall his name but he disappeared shortly after the attacks. Also, there was another scientist who was made to look like he had taken part in this and his name of course was tarnished because of the governments actions against him. I have said all along that this was homegrown. Our own government knew about it, covered it up and killed a few people in the process just to scare the crap out of everyone. The man who was killed that worked at the tabloid paper in Florida had written some kind of story on someone who mattered. Read a conspiracy "theory" that that was the reason that tabloid was sent one of these envelopes.

### interesting addendum

*Submitted by Anonymous on Sat, 07/07/2007 - 2:01pm.*

Several years ago when I was researching the Anthrax attacks after 9/11 I came across a small piece about Controlled Demolition Inc. It was an interview with Jack Loizeaux the founder of the company. He spoke of an upcoming demolition of the bio weapons lab at Ft. Detrick MD. I searched all over the internet over the years and have found no other mention of this demolition.

I thought it was odd that the same company that took down the rest of the Murrah building in Oklahoma City after the bombing and aided in the clean up of The World Trade Center after 9/11 was being commissioned to tear down the lab in Ft. Detrick. As you are aware The Ft. Detrick lab was central to the FBI's investigation after the strain of Anthrax was identified as the Ames strain and most likely came out of Ft. Detrick. Yet there was no mention of this demolition anywhere except in one obscure article. I would have thought this would have piqued some investigative journalists attention.

## Addendum

*Submitted by Anonymous on Sun, 07/08/2007 – 4:47pm.*

I read an article years ago that I thought was peculiar at the time. It was an interview with Mark Loizeaux the president of Controlled Demolition Inc. and son of its founder John Loizeaux.

In the interview Loizeaux mention an upcoming demolition. It was the bio warfare lab at Ft. Detrick Md. What made me think this was peculiar was the fact that not too long before this interview that lab had been singled out as the most likely source of the highly refined military grade strain of Anthrax that had been sent to Tom Daschle and Patrick Leahy. Controlled Demolition was the company that made short work of removing and destroying the evidence from the scene of the largest crime in American history, the ground zero site of the World Trade Center.

Controlled Demolition is the Company that coincidentally finished the demolition of the Murrah Federal Building in Oklahoma City and removed the debris.

What perplexed me most is that in all the time since I read the interview I couldn't find one mention of the Ft. Detrick lab demolition anywhere on the internet, not one.

Seeing as the Ft. Detrick connection to the Anthrax was quite prominent for a little while at least on the internet, I would have thought that the lab's demolition would've piqued some investigative journalist's curiosity.

## Inside job no doubt

*Submitted by Anonymous on Sun, 07/08/2007 – 8:55pm.*

I was a victim of the Anthrax mailings that the FBI has covered up. The very first thing special agent Jim Page of the Raleigh NC FBI office said to me was "you can't tell anyone about this." He later said such asinine things as "why are you still pursuing this?" and my favorite was when I informed him that Otilie Lundgren, Cathy Nugyen and myself were posting on the same message board at the same time he said "that's just a coincidence."

I still had information and stopped calling Jim Page and started calling the Charlotte office speaking to agent Eric Davis. There is no doubt that Steven Hatfill was the field agent in charge of dispersal and monitoring results as he walked down my street twice that I know of once when I saw him and read his last name off of his army jacket. I relayed his name to agent Eric Davis at the Charlotte FBI in November of 2001. a full 7 months before his name became public. To this day my samples and the lesion cut off my arm still have not been sent to the CDC. Only our state lab tested them and later our governor Mike Easley publicly stated that all future test for Anthrax in NC would be forwarded to the CDC because our state labs were incapable of accurately testing for Anthrax.

BTW. I still have evidence in my house. Including Anthrax spores from the letter I received. The FBI and NC's health dept. refuse to test this evidence even when I offered to pay for the test.

Of course it's all true... I had it figured from day one...

This is why we should be very afraid... We have a predatory government run by merciless bad guys who hang out in the shadows. So, don't just blame the Bush admin!

### Times Running Out

*Submitted by Sheridan Peterson on Wed, 07/18/2007 - 8:57pm.*

There is so little time before The National Security & Homeland Security Presidential Directive becomes law on August 15th. Then Bush and his gang will engineer another 9/11 catastrophe and declare martial law. Then there will no longer be a Congress or a Supreme court. Blackwaters gestapo will round up the opposition and lock them up. That's the last we will ever see them again. However, what am I saying. They will be us.

Are we a nation of sheep? Are we going to let this happen? Signing petitions, wearing orange, peaceful protests. It's a waste of time. Bush and his gang are laughing at us. We've got to show some muscle, before the Blackwater goons start knocking down our doors in the middle of the night and dragging us off to concentration camps.

I know so well how that works. I saw the CIA Phoenix Program in Vietnam first hand. They stopped at nothing. I'm sure that John Negroponte and Col. James Steel already have it in place ready to be activated at a moments notice.

Let's get a plan in place now.

They bleed just like anyone else....so stop acting like you are unable to protect yourself from lawless agents of the Worldwide Crime Syndicate. They hire mercenaries whose primary motivation is money. When the

\*prey\* shoot back then the risk goes way up and the payoff goes way down.

### is this the begining of another civil war in the united states

*Submitted by Anonymous on Thu, 02/14/2008 – 3:05pm.*

it seems to me that we can stop the terrorists as long as we have one for a president. since in office he has subverted our culter and media to create a warmachine. terrorism is wrong but the founding fathers of this country un g.w bush would be considered terrorists.

as the war progresses i have formulated meny unanswerable questions.

1. did isreal's terrorist cells stage the 911 attack to bring us into a war thay started in the middle east.
2. was the attack on the pentagon really an aircraft. because through video analysis (pardon my spelling i am dyslexic) of the debree left behind by the alaged dc9 that crashed shows no wings no aircraft at all just a smoldering hole in the building and no wreckage.
3. was the anthrax attact used to scare the american people in the war with iraq. ferthermore was it used to compell congress to sign the unconstitutional patriot act.
4. if the terrorists are so deadly how come there have been no ferther attcks withing the continenal U.S
5. how can we american citizens trust that our government is protecting us . when the leader and spearhead for global war george bush jr. family is in bed with osamas family

### It is impossible for anybody to trust

It is impossible for anybody to trust. The government not in a condition us to protect. And the government more than once proved the *безсилie*. To get rid of terrorism – it is necessary to change a policy of the government.

### Senators Tom Daschle (D-South

Senators Tom Daschle (D-South Dakota) and Meat Leahy (D-Vermont) were having it up because they recognized what this would guide to. The first set up of the PATRIOT Act would have stopped the writ of habeas corpus [which shields people from banned jail time and guarantees due procedure of law].

During my attempts to bring Charles R Schwab to justice for his illegal activities against me, Bush conspired to protect him and tried to frame me for attempted murder. You can read the whole story at my website.
